

## Flyby for OSU football game

This puts a whole new meaning into watching a flyby. We know the pilot! Dave Halpern, Alpha Phi class of 2000. Commander David Halpern, a native of Middletown, NY, was commissioned in 2000 after receiving a Bachelor of Science degree in Aerospace Engineering from the University of Michigan. The planes flew in from Naval Air Station Whidbey Island, WA, and spent the weekend at Willow Run Airport.

Somehow, the Go Blue appeared on the underside of the wing for the trip.

Dave invited Jake Doyle and several of the Undergrads to “inspect” the planes at Willow Run, and then went back to spend some time at the Fiji house.

Word is, his 12 year old son might have gotten his first Fiji indoctrination on the trip.

You can learn more about the **VAQ-133 Wizards**  
<https://www.vaq133.navy.mil/>

Thanks Dave.
