## Brothers attend Pig Dinner

The Undergrads outnumber the Grads 38 to 31 for a good turnout at this year's Pig Dinner on October 13th. It has been 4 years since we could get together due to Covid, so there was refreshing enthusiasm to attend. Brotherhood flowed freely. It was good to see the Undergrads play a large part in supporting the event. Brother Orlando Cabrera '84 gave living examples of how true brotherhood really exists after "college songs and college lays are faded with their maker's days."

## Chapter members recognized for awards

Each year the chapter recognizes the outstanding members who have contributed to the success of the chapter during the year. This year, 18 recipients received over \$13,000 with the largest portion coming from the Phi Gamma Delta of Michigan Foundation (our fund raising arm). Kelley Rea '66 presented the awards November 9th, with a good evening of fellowship, including pizza and refreshments. Check out the summary of recipients. ## Major improvement in Brother Data

Thanks to the insight of our new webmaster, Aaron Ellis '08, finding a contemporary Brother is easier than it has ever been. You can look up by name, class, or city in a much more user friendly format than the old system allowed. The feedback from our recent Pig Dinner mailing resulted in over 200 corrections to addresses, and other data. Telephone numbers are probably the weakest element because we have not tested them lately. Check it out. Look up your own data. If it is wrong, you can easily submit a correction. Try your classmates and send me any corrections you uncover. Just go to: <https://phigams.org/private/> and click on Database of Brothers. You may need to enter your email to gain access. Let me know how you like it. [fijiman@metalmasters.com](mailto:fijiman@metalmasters.com)

You can also help us find the lost brothers who have moved on, but haven't given us their latest data. There's a good chance you know how to contact them. While you are browsing the brother Data, also check [view the list of missing brothers](#) link to see if you see anyone you can update of the nearly 200 Lost ones.
